ACKNOWLEDGMENTS

William P. Chamberlin, Schenectady, New York, collected the data and prepared the report.

Valuable assistance in the preparation of this synthesis was provided by the Topic Panel, consisting of Everett B. Barnard, Bridge Maintenance Engineer, Maine Department of Transportation; Curtis B. Cryer, Senior Electrical Design Engineer, Oregon Department of Transportation; Eric N. DeLony, Chief, Historic American Engineering Record, National Park Service; Bruce Eberle, Federal Historic Preservation Officer, U.S. Department of Transportation; Peter J. Frantz, Chief of Environment, Illinois Department of Transportation; Mary F. Ivey, Head of Cultural Resources, Environmental Analysis Bureau, New York Department of Transportation; Paul Daniel Marriott, Director, National Task Force for Historic Roads,

National Trust of Historic Preservation; Robert McCullough, Historic Preservation Coordinator, Vermont Agency of Transportation; and Jon M. Williams, Senior Program Officer, Transportation Research Board.

This study was managed by Stephen F. Maher, P.E., Manager, Synthesis Studies, who worked with the consultant, the Topic Panel, and the Project 20-5 Committee in the development and review of the report. Linda S. Mason was responsible for editing and production.

Crawford F. Jencks, Manager, National Cooperative Highway Research Program, assisted the NCHRP 20-5 staff and the Topic Panel.

Information on current practice was provided by many highway and transportation agencies. Their cooperation and assistance are appreciated.
