2. Summer meeting

To be held September 7 – 10, 2008 in Saratoga Springs, New York. A call for papers will be distributed soon. Tentative topics include:

- Historic road management
- Born to be wild, historic race circuits
- Historic bridge management

- Curation
- NY State Museum and NYSDOT – 50 year relationship, Dr. Christina Rieth
- Canals and locks, including Erie Canal
- Visual quality assessments and CSS – with Landscape Committee, participation by Scenic America
- Local transportation in historic downtowns
- Managing consulting parties, best practices in effective Section 106 consultation
- Innovative approaches to public involvement
- Tribal consultation
- Sustainability, historic properties and landscaping - with Landscape Committee
- Identifying and evaluating 20th century resources – How to streamline surveys

3. Winter 2009 meeting – Sustainability is overall theme

Possible sessions are:

- History of Bridge Aesthetics – with AFF10 (2), Mary to follow up
- Steel bridges, reinforced concrete arches, Mary to follow up
- Noise and vibration – with ADC40, Tony to follow up
- Section 106 consultation – with Native American Committee
- Efficiency of archaeological fieldwork
- Sustainability – check with Henry Ward?
- “Born to be wild” road racing circuits – with History Committee, Bob to follow up
- Monumental engineering structures (film night) – Tony to follow up with Christine G.
- Other topics as determined through research database (due March 1)

4. Future meetings

- 2009 – Wyoming or Northern CA (possibly Asilomar) – Tony to check with Julie Francis about whether Wyoming is feasible
- Consider holding jointly with Native American and/or Ecology Committees
- 2010 – Mega conference with other environmental committees
- 2011 – CA if not in 2009

5. Regular conference calls

The subcommittee will hold monthly conference calls to facilitate program planning. The next call is February 14 at noon CT. Meetings will be announced on the listserv.
